July 2025 Cohort Hackathon 1: Portfolio Challenge 🚀

Welcome to the **PLP Academy Portfolio Challenge!** 🎉

This README.md file provides all the details you need to successfully complete and submit your project. Let's get started! 💻

🌟 Project Overview

Your challenge is to build a **personal portfolio website** that showcases your skills, background, and achievements. Your portfolio should include:

1. **Programming Languages**: List the programming languages you're proficient in.
2. **About Section**: Share a brief introduction about yourself, your passion, and what drives you.
3. **Educational Background**: Provide details of your education and include a downloadable CV.
4. **Interests**: Share what excites you about tech and your professional interests.
5. **Projects**: Include links to your projects with brief descriptions.
6. **Contact Form**: Make it easy for collaborators or employers to reach you.

🛠️ Guidelines

- **Skills**: Build your portfolio using HTML and CSS.
- **Individual Work**: This is a solo challenge—showcase your skills and creativity.
- **Deskie Team Up**: This is you and your Deskie working together, merging your skills and creativity to come up with something great.
- **Reference Material**: For additional details and helpful information, refer to this document.
- **Submission**: Push your project to a **public GitHub repository** and complete the submission form.

🗓️ Key Dates

Start Date: July 30th, 2025, 12:00 PM EAT **End Date**: Aug 3rd, 2025, 12:00 PM EAT **Award Ceremony**: Aug 8th, 2025, 5:00 PM EAT

💼 Example Portfolio Sections

📝 About Me

Hi! I'm [Your Name], a passionate web developer with a love for creating functional and beautiful web experiences.

🎓 Educational Background

I hold a degree in [Your Degree] from [Your University].
Download My CV

💡 Interests

- **Web Development**: Exploring modern frameworks and best practices.
- **Tech Innovations**: Keeping up with emerging trends in technology.

🛠️ Projects

1. Project 1: A brief description of your project.
2. Project 2: Another brief description.

📬 Contact Me

Feel free to reach out! Contact Form

📁 Submission Instructions

1. **Create Your Portfolio**: Build a complete portfolio website with all the required sections.

2. **Push to GitHub**: Upload your project to a **public GitHub repository**.

README

Evaluation Criteria

- **Creativity and Ingenuity (20%)**: Original ideas and standout features.
- **Code Quality (20%)**: Clean, readable, and efficient code.
- **Documentation (15%)**: Informative README and clear code comments.
- **Deployment (15%)**: Successfully hosted on a platform like GitHub Pages, Netlify or Vercel.
- **Development Process (15%)**: Effective collaboration and project management.
- **Technology Stack (15%)**: Usage of responsive, visually appealing tools.
